Personal Profile

Software Development with a strong academic foundation and a proactive, goal-oriented mindset. Currently working as an Oracle Database Administration intern at JRI America Inc., where practical experience with production-style environments has built a solid grounding in database engineering and backend infrastructure. Particularly interested in developing efficient, reliable, and scalable software solutions across the full stack. Brings strong problem-solving abilities, attention to detail, and a genuine commitment to continuous learning. A link to all my projects is provided in the header of this document.

Experience

End User Services - SMBC Group, Ireland Help Desk Representative	Sep 2026
Co-Op Placement – SMBC Group, Ireland Oracle Database Administration	Jan 2026 – Aug 2026
Munster Technological University - Tralee, Ireland Student assistance at Open Day	Oct 2025
Soccer Tralee - Tralee, Ireland Volunteer Team Manager	May 2023 - Apr 2024
Tralee Sports and Leisure Centre - Tralee, Ireland Member Services Associate	Jan 2023 - Mar 2023

Key Skills

Languages & Scripting:

HTML, CSS, JavaScript, Java, Python, C#, PHP, SQL, Bash

Frameworks & Libraries:

Bootstrap, Node.js

Tools & Environments:

Visual Studio Code, Azure DevOps, Git, GitHub, Command Line / Bash, Oracle SQL Developer, Linux (RHEL / OEL)

Databases:

Oracle Database (12c, 19c, 24ai), SQL, MariaDB, MySQL; familiar with RMAN backup & recovery, data import/export, and regression testing post-patching

Development Practices:

Version Control (Git), Agile methodologies, basic CI/CD concepts, debugging and testing, working with APIs, database incident triage and escalation

Interests
